

Announcing our **new**
flagship treatment centre

Eurus | S6

Perfecting the art of dentistry

Eurus S6

Perfecting the art of dentistry

The new Eurus S6 treatment centre exudes refinement and brings the next level of superior comfort, quality, innovation and styling to contemporary dentistry.

The super efficient design offers **total accessibility** for both patient and operator alike, allowing effortless working positions alongside discreet cleaning and preparation zones. Like the Eurus S1, the intuitive touch-screen is easy to navigate and brings a wealth of operating functions to the finger-tips of the dentist.

Stylish & efficient

Perfect positioning

Precise height adjustment

Easy to use foot stalks

Stylish and efficient

The contemporary Eurus S6 brings a below-the-patient swing-arm delivery system, powerful intuitive touch screen with advanced instrument control and integrated WaveOne technology as a factory built-in option.

Precise doctor table positioning

With the height adjustable balance arm the doctor table can be presented at the required height and by the press of a button can be adjusted with ease, lifting or lowering, then simply releasing the brake button to lock into position. The swing around arm presents the doctor table in numerous positions with ease, facing forward for working in front of the patient, or around the side from the 9 to 1 o'clock positions for a range of procedures with effortless movement, reducing fatigue for the operator. The handpiece holder is also totally independent from the table and can be freely adjusted across three axes.

Robust construction

The maximum weight capacity has now been increased to 165kg. Foot stalks positioned at the rear of the chair base allow easy and precise chair positioning.

Advanced ergonomic features

Great accessibility

With the chair in the zero position, leg-rest in, armrest folded down and doctor table in the preparation position the entry and exit zone completely opens-up at the front and side of the chair enabling very easy access for all patients, especially children, elderly and infirm.

Positioning the doctor table, instruments and assistants tray discreetly out of view behind the chair backrest eases any patient anxiety as they enter the surgery.

This **unique Eurus S6 combination** benefits dentist, assistant and patient alike.

Greater freedom of movement for dentist and assistant

Compact preparation area

Perfect patient access and consultation area

Our contemporary flagship treatment centre

Quiet hydraulic chair movement

Unobstructed work-flow

Smooth quiet movements

The Eurus S6 benefits from an extremely quiet hydraulic chair system, with smooth movement ensuring complete patient comfort while being positioned for treatment.

Flexible positioning

The assistant instrument delivery arm is simple to position allowing the operator to work single handed or four handed.

An integral feature of the Eurus S6 is the **90 degree rotating spittoon**. This allows clear access to the left side of the patient for both dentist or nurse to operate, whilst daily hygiene routines are also made easier.

Class leading specification

New features include a taller backrest cushion with additional lumbar support for unrivalled patient comfort, twin-articulating headrest with more precise positioning, a wireless foot control as standard with low battery indicator on the touch-screen plus a wealth of new safety features.

A wide range of chair upholstery colours and finishes are available to complement and further enhance your surgery.
